

About Me

I'm Vishal Sharma, a recent Computer Engineering graduate with a strong foundation in Python, JavaScript, and HTML/CSS. Eager to dive into the world of software development, I am passionate about working on innovative projects and collaborating with professionals. With a relentless drive for perfection and a desire to push limits, I am determined to make a significant impact in the field of software engineering.

Experience

Python intern at CAN technology ,Noida

December 2023 to June 2024

- Assisted in troubleshooting and resolving Python coding issues
- Supported team in developing and testing Python scripts and applications
- Participated in code reviews and contributed to improving code quality
- Researched and implemented best practices for Python development

Projects

AI-Web-App

- The AI Blog Generator is a web application designed to automate the process of creating blog posts. Leveraging the power of artificial intelligence, this application generates high quality blog content based on user-defined topics and keywords
- The system is built using Python and the Django web framework for the backend, with HTML and JavaScript forming the frontend interface.
- **features**
 - User Authentication: Secure login and registration functionality to ensure that only authorized users can access and use the blog generator.
 - Post Management: Users can view, edit, and manage their generated blog posts through an intuitive dashboard.

Twitter-clone

- I am currently developing a Twitter clone as a practical project to enhance my skills in React and Node.js. This project involves creating a full-stack web application that replicates core Twitter features, including user authentication, tweet creation, timeline display, and user interactions such as likes, retweets, and comments.
- I am learning React and Node.js from the basics and applying this knowledge directly to the project

Education

Bachelor of Computer Science
Sd college of Engineering and technology ,
Muzaffarnagar
2020-2024

Skill

- Python
- Django
- Logical thinking and problem solving
- Data Structures and Algorithms
- C /C++/C#
- JavaScript,HTML5 and CSS6
- Database and SQL
- Adaptability and continuous learning

key Skills

- Problem-solving
- Flexibility
- Patience
- Ability to work independently
